## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on December 15, 2005 has been entered.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on December 15, 2005 has been considered by the Examiner.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: Claims 1-12 and 30-40 have been found to be allowable since while the prior art of record teaches an electrostatic chuck for holding an object by electrostatic force and having a dielectric member formed on an attraction surface facing the object, the surface of the dielectric member facing the object is provided with a plurality of supporting members and wherein the supporting member has a conductive layer but the prior art of record does not specifically teach the conductive layer on the surface in contact with the object having a specific resistivity less than  $10\Omega\text{m}$ , as recited in the instant claims of the present application.
